Software Development Plan

1. Introduction

- **Purpose:**

- The project manager uses it to plan the project schedule and resource needs, and to track progress against the schedule.
- Project team members use it to understand what they need to do, when they need to do it, and what other activities they are dependent upon.

- **Scope:**

- This Software Development Plan describes the overall plan to be used by the Honie Cosmetics project, including deployment of the product. The details of the individual iterations will be described in the Iteration Plans.
- The plans as outlined in this document are based upon the product requirements as defined in the Vision Document.

- **Overview:**

- This Software Development Plan contains the following information:
- Project Overview — provides a description of the project's purpose, scope, and objectives. It also defines the deliverables that the project is expected to deliver.
- Project Organization — describes the organizational structure of the project team.
- Management Process — explains the estimated cost and schedule, defines the major phases and milestones for the project, and describes how the project will be monitored.
- Applicable Plans and Guidelines — provides an overview of the software development process, including methods, tools and techniques to be followed.

2. Project Overview

2.1 Project Purpose, Scope, and Objectives

- Products are developed with the purpose of increasing sales for sellers and more convenient for customers who want to buy cosmetics. The product will be developed in the form of a website for users including sales people or customers.
